OneSails Next Generation Class

To celebrate and encourage the next generation of competitive sailors, Dartmouth Sailing Week and OneSails GBR South have introduced the inaugural **OneSails Next Generation Class**.

Any boat in the Yacht & Dayboat Series with at least one **crew member aged 18 to 29** is invited to declare their eligible crew. Eligible boats will be entered into the OneSails Next Generation Class alongside their existing racing class.

OneSails will be awarding daily prizes related to sail trim, repair and technology, throughout the regatta. These will be great opportunities for those wanting to develop their own skills and possibly to pursue a career in the marine industry.

As part of the initiative, eligible sailors will also be invited to attend an exclusive OneSails sail repair masterclass, offering practical sailmaking knowledge from the OneSails GBR South team.

The aim of the OneSails Next Generation Class is to recognise young sailors already competing, encourage more young people to race boats, and help support the future of competitive sailing.

To enter any young sailors on your boat, skippers please follow this link https://webcollect.org.uk/dartmouthsailingweek/event/onesails-next-generation-class and submit the entries through your WebCollect account, or the young crew can submit their own entry but would need to sign up for WebCollect.

The entry process is: Add to Basket, Checkout (don't worry, it's free!), Sign In, and complete the entry form, and finally ***don't forget to click "Place Order".*** *Enter for each young sailor on board. Once we have processed your OneSails entry/ies, your boat entry will be marked with the selector "O" for "OneSails" on the Entries list.*
